Welcome to the International Hunter Education Association!

You are invited to become a part of an organization that is dedicated to continuing our hunting heritage by promoting safe, responsible and knowledgeable hunting. The International Hunter Education Association (IHEA) is a non-profit organization dedicated to providing training to hunters who want to begin hunting. State fish and game agencies began offering hunter safety programs in 1949. Since then, more than 35 million people have been certified. The hunter safety program has grown, and is now known as the Hunter Education Program. Hunter safety is still a primary concern, but hunter ethics and responsibility, firearms safety, conservation, wildlife management, survival, and other topics are important parts of the course as well. The membership of the IHEA includes Hunter Education Administrators from the state and provincial governments of Canada, Mexico, New Zealand, South Africa, Peru and the United States, as well as conservation groups and volunteer Hunter Education instructors. Over 70,000 volunteer Hunter Education Instructors certify approximately 750,000 new hunters per year under the leadership of the state and provincial Hunter Education Administrators. The IHEA's Mission: ***"To continue the heritage of hunting worldwide by developing safe, responsible and knowledgeable hunters"***, has been established to ensure that the hunting heritage is passed on to future generations.

As a member of the International Hunter Education Association, you recognize that few things are more valuable than continuing our heritage of hunting. Becoming a Lifetime or Individual member today is a great opportunity to show your support for our mission and to help ensure the future of hunting!

To establish or renew your membership, you may use the enclosed application form, or for on-line membership visit our website at:
